——

Thing to know first:
- Make sure you are using English version of Photoshop.
- Use at least 2500-3500px image size for best result and to avoid errors.
- Use RGB mode and 8bits color.
- Use at least 72dpi.
- Load the action file ahead.
- Make sure that the option "Add "copy" to Copied Layers and Groups" is checked.
  To do this, go to Layers Panel and click the dropdown icon in the top right corner.
  Select "Panel Options…" and the Layers Panel Options tab will pop-up. From there, check the "Add "copy" to Copied Layers and Groups".
- The Brush Mode must set to Normal and the Opacity and Flow are at 100%.
- If you are experiencing some errors, try resetting your Photoshop preferences. To do that, just hold down the Alt+Ctrl+Shift keys (Mac: Command+Option+Shift) while starting up Photoshop.
  A dialog box will appear asking if you wish to delete the preferences/settings file. Click Yes!

——

How to load the action:
