Cyberpunk Actions for Adobe Photoshop

1. Open Adobe Photoshop.
2. Set "Cyberpunk Actions.atn" (just drag and drop the file into Photoshop or upload via the menu in the Actions window Window> Actions> Menu> Load Actions).
3. Open the image.
4. Launch Cyberpunk Actions.
5. You can choose one of the color processing options.
6. You can disable the "Highlights" layer if you want to remove the illumination gain in the image.

Thanks for your purchased!
