

# Info and Quick Guide

## *3D Colorful Photoshop Actions*

New Generation of 300 DPI ATN Photoshop Actions which are perfect for any kind of your work.

### Features:

1. 9 Actions to choose from
2. 3 Styles with 3 Depths of the 3D effect
3. Works in Hi-res 300 DPI
4. Great Tool for any Print Template or Web design
5. 1 ATN File with all 9 Actions
6. 1 PAT File – with used patterns
7. Works with many fonts and you can also experiment with shapes or vectors

### How to apply Actions on your own Text:

1. Open your Photoshop and start **New Document (300 DPI)**.
2. Now Choose OPEN from **Menu > File > Open** and open **3D Text Actions.atn** (Action File) + **3D-patterns.pat** (PAT file).
3. You need to do the step above only once. Now use your text tool to write some text (any color).
4. Now hit **Alt+F9** (Mac users Cmd+F9) to open the Actions window.
5. Choose one of the Action from 3D Text Actions folder and play it.
6. Done.
7. If You have some troubles with playing the Action, You can contact me for support via my profile - <http://graphicriver.net/user/survivor?ref=survivor>

### How to customize Color and Textures and Shadows:

1. After the action is done, you will see **COLOR – Stroke**, **COLOR – Text** and **COLOR – 3D** folders.
2. To change the color **collapse 1 of these folders** and **double click the Thumbnail** of the **Color** layer to open the **Hue/Saturation** panel. Here you can **use the sliders** to change the color, saturation and lightness.
3. To **customize textures**, there are two folders – **Overall Textures** and **Top Textures**. You can **hide the textures** by clicking the **eye icon** in the **Layers panel** or you can collapse the folder and hide only parts of it.
4. **Shadows** can be partially hidden or moved – All of the shadow layers are stored in the **Shadows folder**.

### TIP:

These Actions are made for 300 DPI documents, so if Your effect isn't right, try to scale up the text or scale it down, if the effect is too small for you.
