

Hi there,

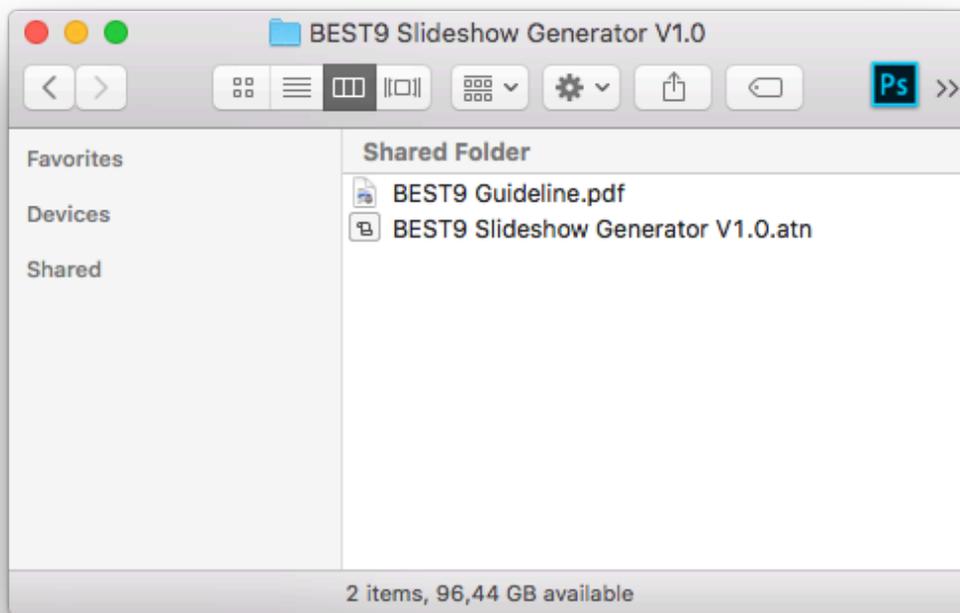

Thanks for purchasing BEST9 Cinematic Photoshop Slideshow.

PREPARATION

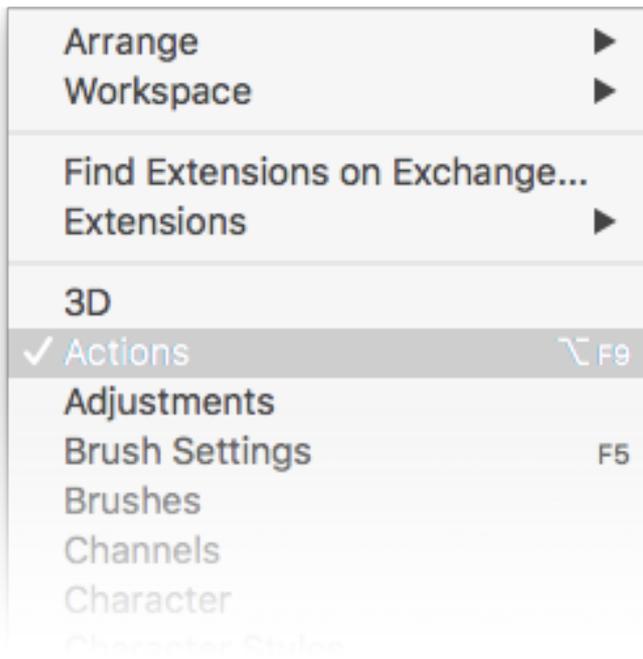

Couple things to do before generate the slideshow.

Installing Photoshop Actions

1. Find *BEST9 Slideshow Generator V1.0.atn* from purchased file, right click > open with > Adobe Photoshop CC xxxx.

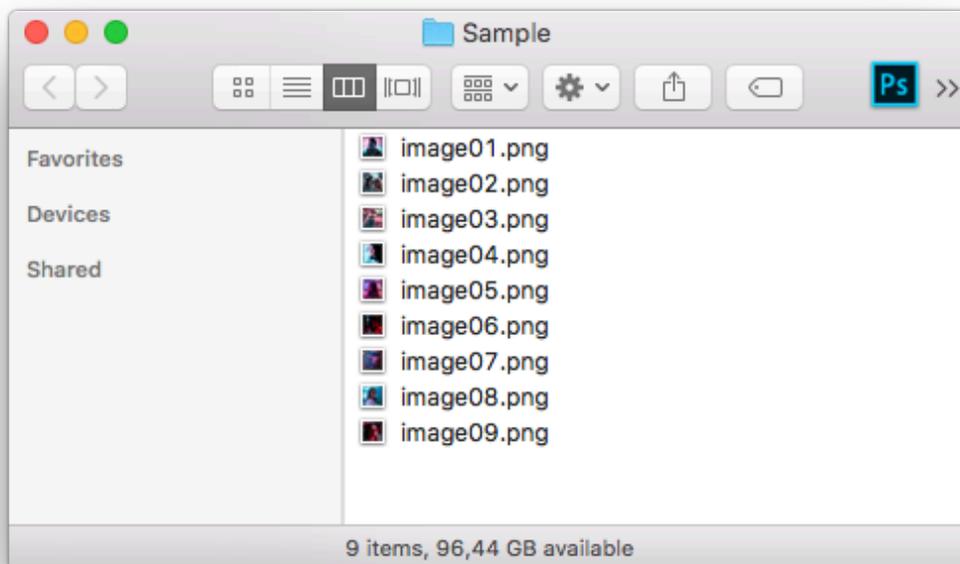

2. Or simply double-clicks the .atn file if you already have Photoshop installed.
3. On Photoshop, open Actions panel (window > actions) then click menu in the top right of the Actions Panel, select *Load Actions*, then load the .atn file.

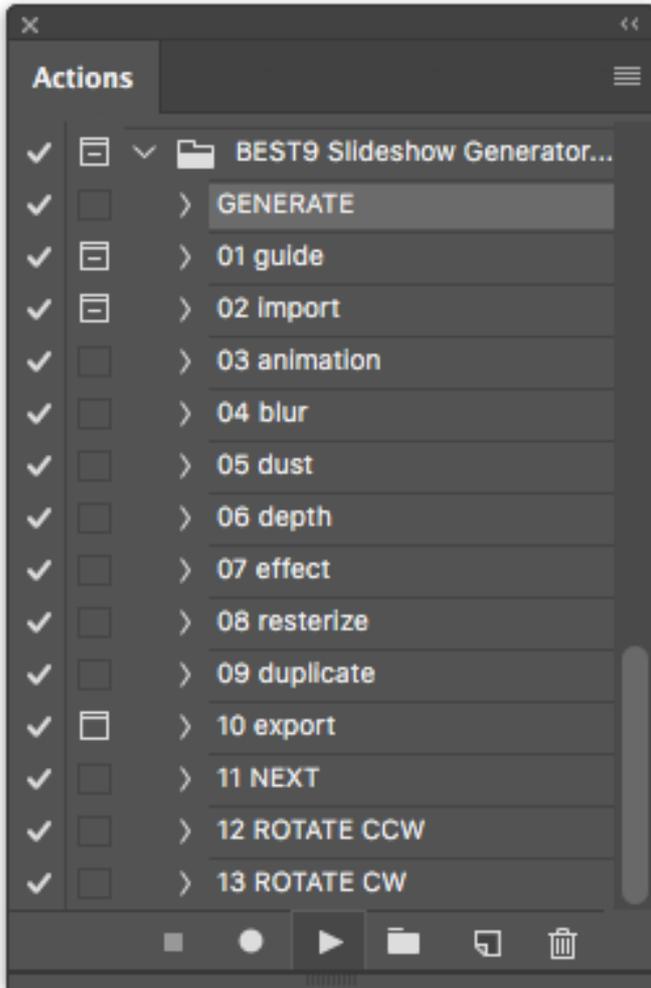

Preparing Images

Place your 9 images (jpg/png) into a same folder for faster process.

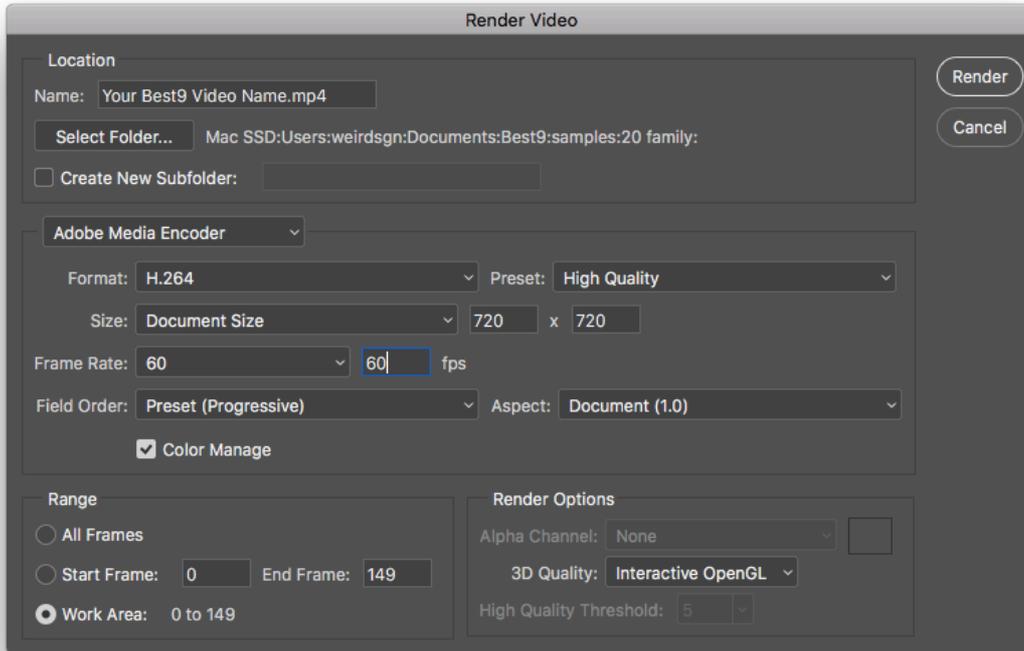

GENERATE BEST9

1. Open Photoshop.
2. Create a New Document (Ctrl+N for windows, Cmd+N for Mac).
3. Set a square canvas. 720x720 px is the most recommended (72 pixel/inch).
4. Open Actions Panel, then play the GENERATE actions.

5. Select the background color, then press **OK**.
6. Place your 9 images into the canvas, you can arrange the position and size. Press enter to proceed with next images, repeat this until all 9 images are imported to your Photoshop.
7. Wait and relax while the actions is working.
8. Export video settings will appear, name your video file and destination. Select H.264 format for mp4. Document Frame rate recommendation is 30 fps. Then click Render button.

9. Now wait until Photoshop finish exporting your video, it may take a while depends on your computer performances.

Grab a cup of coffee is a very good idea ;) *Awesome things take time* ☕

10. **Done!** You slideshow video is ready.

What to expected on upcoming updates:

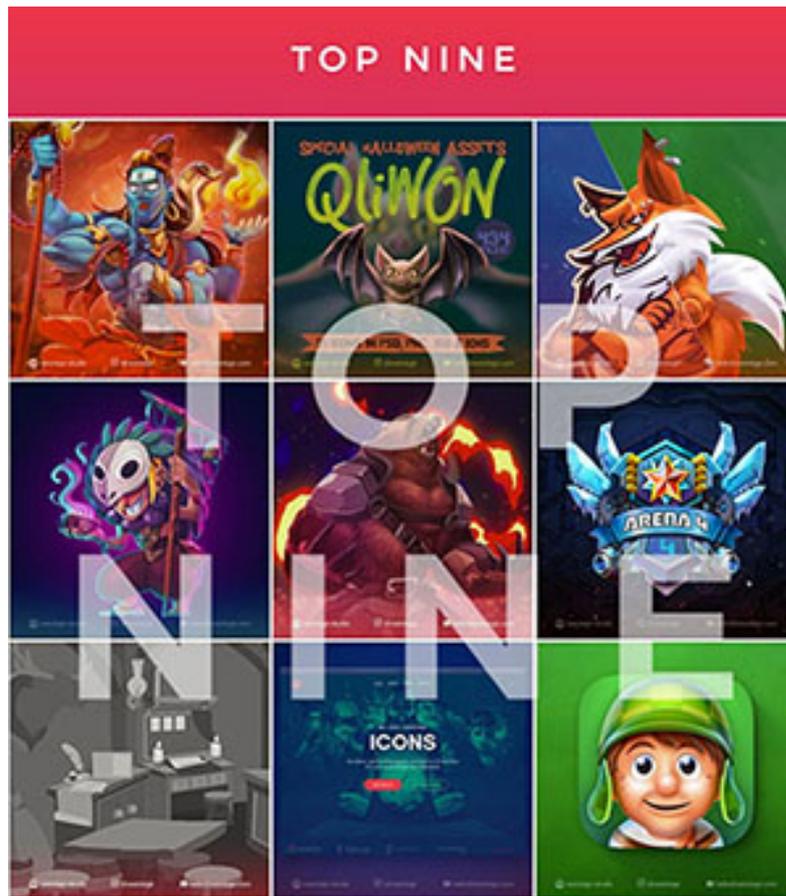

- More proper guideline and tutorials.
- Ability to select amount of slides.
- Instagram story templates.

TIPS & TRICK

How to create and download my Instagram #best9 post?

- You can download **Best Nine** app and generate yourself by signup using your Instagram account. <https://apps.apple.com/us/app/id1326256637>
- Or you can manually request you bestnine from the website <https://www.bestnine.co/> Just enter your username and email address, your bestnine will be delivered to your inbox.

Like this one:

Rediscover your Top Nine Instagram moments from 2019. Share them with your friends using the hashtag #TopNine2019 .

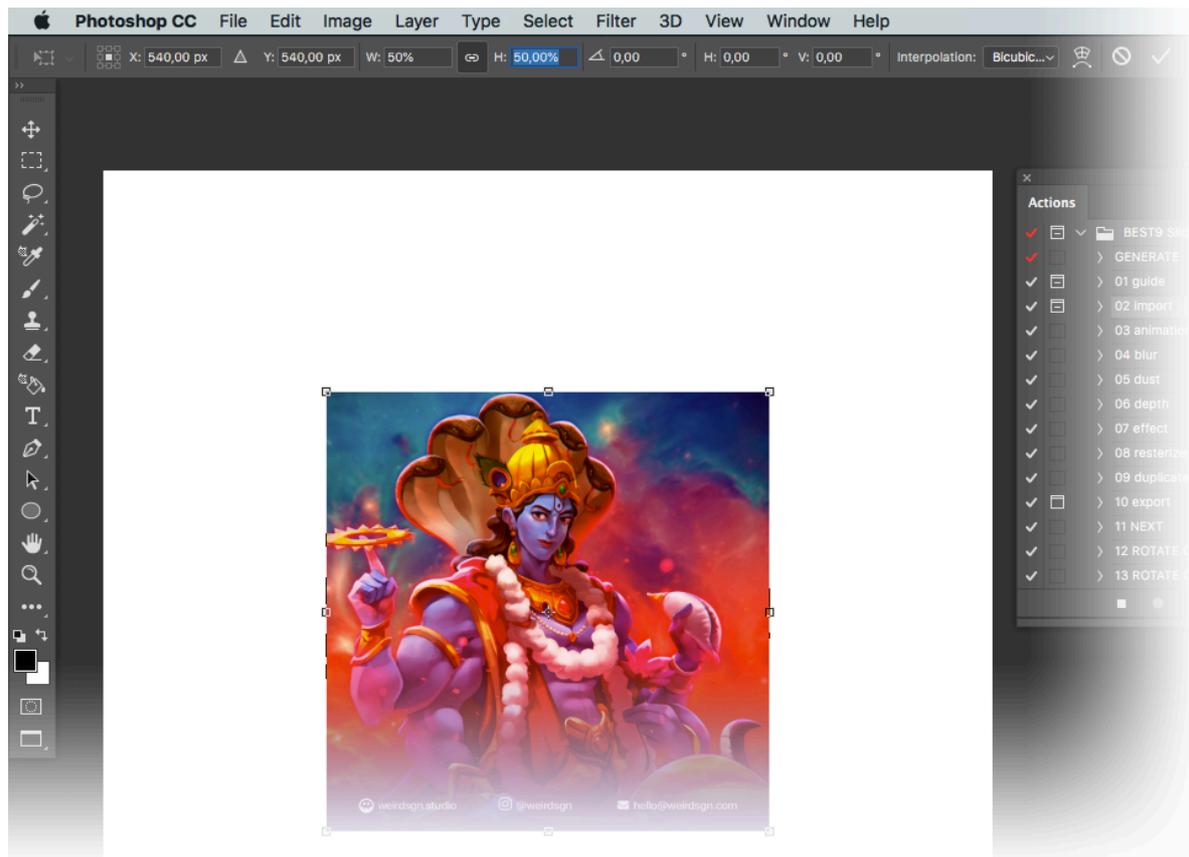

- After you get your bestnine collage, you can download the original photos from your instagram account using this online tools: <https://www.ins-porter.com/> (using desktop browser).
- Just copy the url from your Instagram and then paste to <https://www.ins-porter.com/> to get the download link of your Instagram image.

How to Crop the video to Vertical (Instagram Story) format?

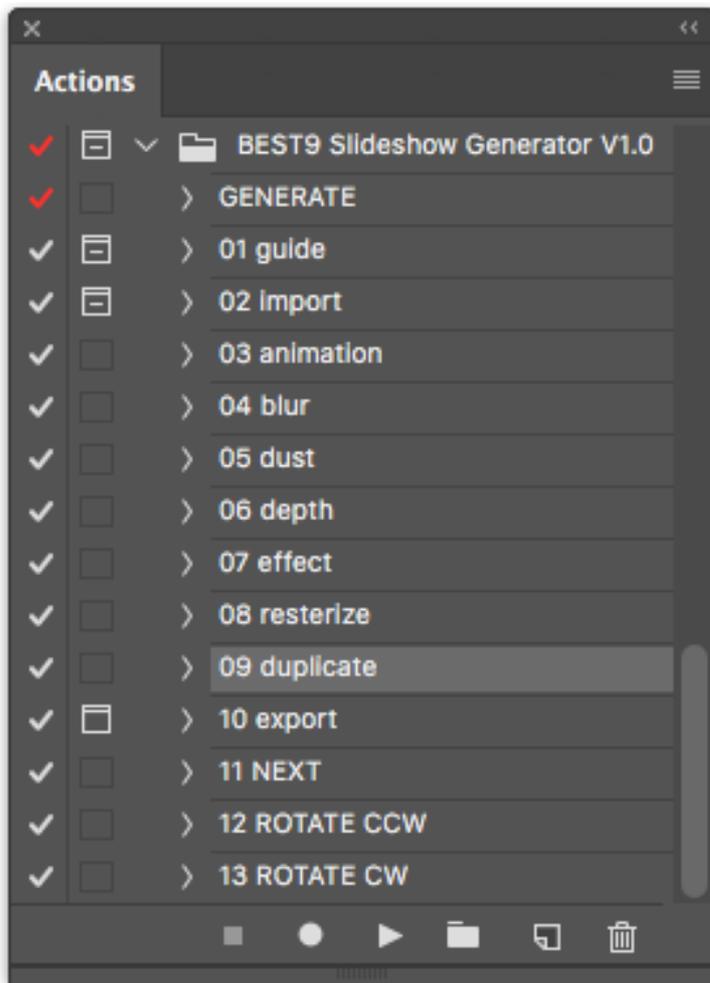

- Before playing the actions, please expand the GENERATE actions and uncheck the last two activity (08 duplicate & 09 export).

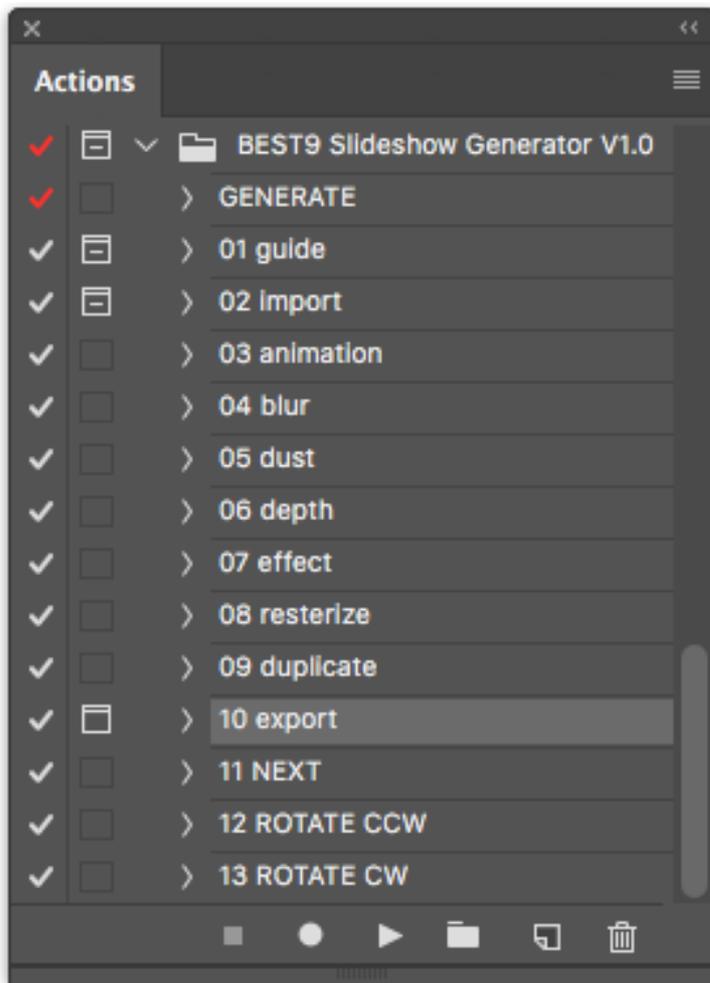

- Then play the GENERATE actions.
- When importing image, please resize them around 50-60% size to all images.

- When the action stopped, please change the canvas size (Ctrl+Alt+C or Cmd+Alt+C) to desired size.
If you are started with 720x720 px, then change the canvas size to 405x720 px.
- Then play the next action "09 duplicate"

- Wait it done then play the "10 export" actions below it.

FAQ

– Why only square?

Because it's more easy to duplicate and rotate it to use on the next slides. If we use portrait orientation canvas, the next slide will become landscape. Also, square orientation is the most adaptable to use on many platforms. You can crop into landscape (for youtube or facebook post/ads) or portrait (for instagram story) later after the video is rendered. Crop the mp4, not the psd.

– Why only 15 seconds?

This item originally was made for Instagram Story, which only support 15 seconds video.

And the psd file generated will be around 800MB. We won't destroy your computer :)

But from the psd, you can manually edit the length of your video duration, with your own risk.

– How to compress the Video?

We are recommending to use *Handbrake* software, download it for free at <https://handbrake.fr/> it's open source, available for Mac/Windows, and work like a charm!

Watch our video tutorial at <https://youtu.be/BzBPBAgvfdY>

And for more awesome items, please visit our store at <https://weirdsgn.com/store>

Enjoy the item and let's create something awesome!

Thank you very much for you support,
