

PSDSQUARE

Thank you for purchasing our item. We hope you will be 100% satisfied with our product.

### **First before using this action you must check few things,**

- You need to have an English version of photoshop
- You need to have RGB color checked (Go to Image > Mode and Check RGB Color)
- After, in the same panel check 8 bits/channel option
- Go to Layer, Click on the little icon in the upper right corner and go to Layers Panel Option and check "Add" to Copied Layers and Groups"

### **Recommendations,**

- Use High Quality Pictures
- I recommend using a photo with a resolution 2000 x 3000 pixels
- If you use PSD you need to flatten all layers (Go to > Layers > Flatten image)
- Please watch video tutorial before run this action (You can find video tutorial in our youtube channel or item page description)

### **Install and use the action**

1. Open your image
2. Open the action (go to: Window / Actions, click on menu icon at the right and choose in list "Load Actions..." then find the action on your computer and open it
3. Right click your image background layer and click "Layer from Background" then go to Layer > New > Layer from Background If you use PSD you need to flatten all layers (Go to - Layer > Flatten image)
4. Now you can run the action (WATCH VIDEO TUTORIAL BEFORE RUN THIS ACTION)
5. Wait a few minutes that Photoshop make all actions
6. Enjoy it

However, if you have any problem with our action file please let us know. We are here to help you.
