

Perfect-design

1. INSTALL THE ACTION

You can watch [this video](#)

1. Open your Photoshop and go to the **Action Panel**.
If you don't find the Action Panel, please go to **menu bar**, select **Window > Actions**.
2. **Load the Action**
Click the dropdown icon on the top right corner of the Action Panel to open the option menu, then click on “**Load Actions**” (*see the picture below*).

3. Now, select the action file (*.atn) you wish to install. Click Load/Open button to complete the installation.
4. The action will now appear in your Action Panel and ready to use.

Please note: Before install the action, make sure the action pack you have been downloaded is already unzipped.

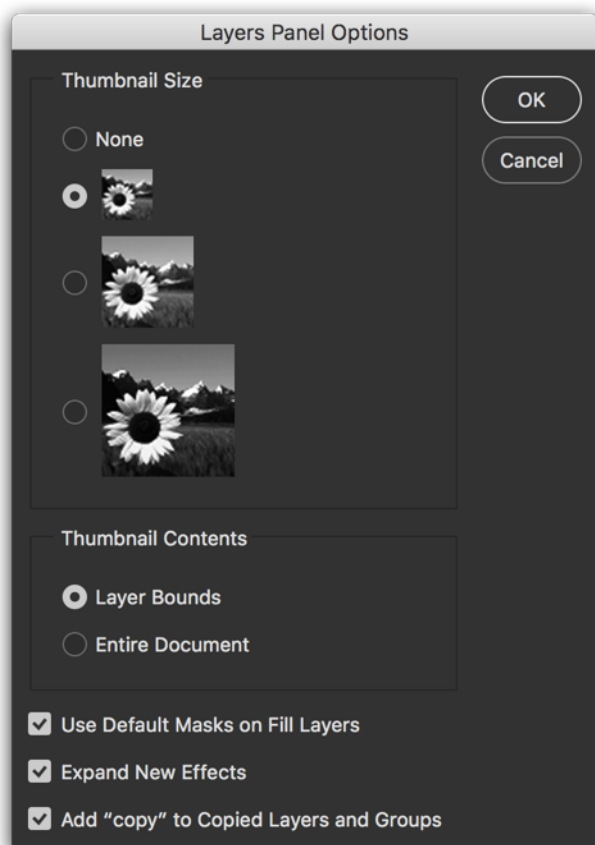

2. INSTALL THE BRUSHES AND PATTERNS

If the archive contains files with the file extension .abr and (or) .pat, you need to install them. To do this:

1. Open Adobe Photoshop
2. Go to **Edit > Presets > Preset Manager**
3. To install **brushes**:
4. Change **Preset Type** on Brushes
5. Click **Load**
6. Select the brushes file (***abr**). Click Load/Open button to complete the installation.
7. To install **patterns**:
8. Change **Preset Type** on Patterns
9. Click Load
10. Select the patterns file (***pat**). Click Load/Open button to complete the installation.
11. Click **Done**.

3. BEFORE YOU RUN THE ACTION

1. Make sure you are running the **English(Italian, French, German, Spanish) version of Photoshop**. If you are not using the English(Italian, French, German, Spanish) version, you can follow this procedure demonstrated in [this video](#) or [this video](#)
2. Your Photoshop document must be in **RGB color mode**. To check this, go to the menu **Image -> Mode -> RGB Color**
3. Your Photoshop document must be setup in **8bits/Channel**. To check this, to the menu **Image -> Mode -> 8bits/Channel**.
4. Use a high resolution photo. Recommended sizes are between **1500px – 4000px (optimal size is 2000 – 4000)**. For images under 800px, you increase the likeliness of an error occurring as there is not enough pixels for Photoshop to perform certain tasks.
5. If the action requires brushes for it to work, please **ensure your brush opacity is set to 100% before playing the action**. If brushes are included in the download, then they must be loaded into the brushes panel and set to 100% opacity before playing the action.

7. Make sure the **"Add 'copy'..." option is selected**. To do this:

Go to layer panel and open the option menu (click the dropdown icon on the top right corner of the Layer Panel).

When the menu is already open, click on "Panel Option" to open the Layers Panel Options.

Next, select (checked) the **"Add 'copy' to Copied Layers and Groups"** (see the picture below)

8. Make sure the layer with the photo is the **background**.

4. HOW TO RUN THE ACTION

1. **Open a photo you want to work with**

2. **Run the action.**

Go to action panel. Select the action you have been installed, open the action set/group, select the action you want to run, then click the play button to run the action.

To open the Action Panel: **Menu Bar > Window > Actions**
