## BEFORE YOU RUN THE ACTION

First, open the subject photo on which you want to work. To open your photo, go to File > Open..., choose your photo, and click Open. Now, before we get started, we need to check a few things:

1-Your photo should be in RGB Color mode and 8 Bits/Channel. To check this, go to Image > Mode.

2-Your photo should be the Background layer. If it is not, go to Layer > New > Background from Layer.

3-Click the fly-out list of the Layers panels and click Panel Options .... Make sure Add "copy" to Copied Layers and Groups is checked.
