

LANDSCAPHO TO

INSTRUCTIONS

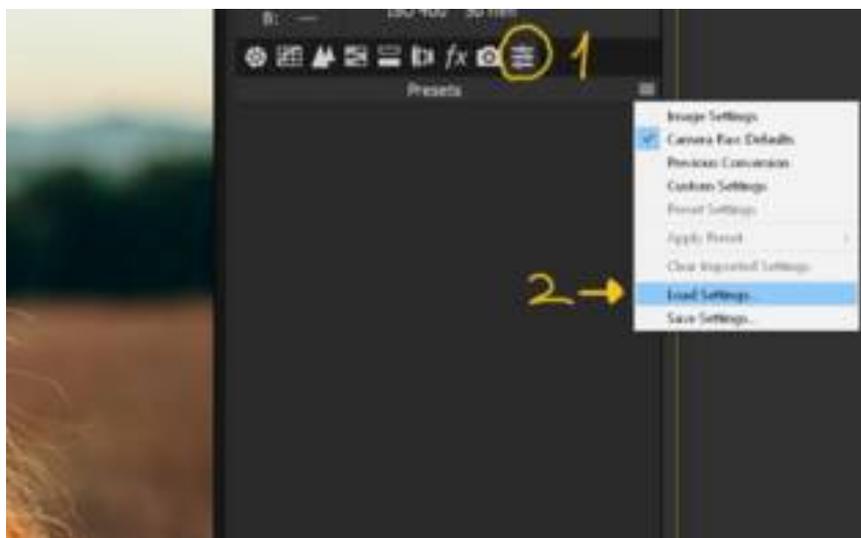

How to install **Camera Raw Presets**

STEP 1 – Installing the presets.

- Save your presets in a folder that you can remember
- Open Adobe Photoshop
- Open a photo in Adobe Photoshop
- Open Camera Raw Filter

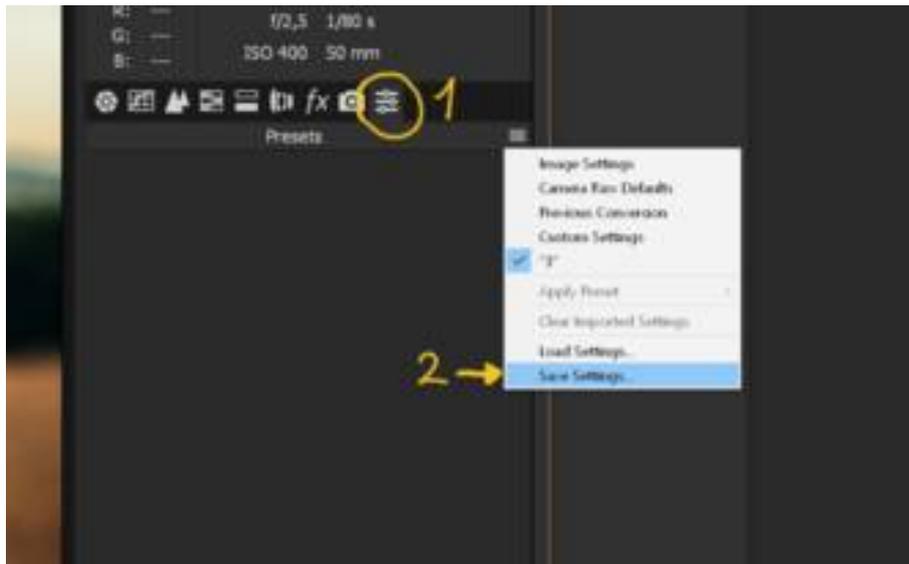

- In Camera press the 'presets' tab (1)
- Click 'Load Settings' (2)

- Search for your presets and select a preset.
- Click 'open'
- Preset is now applied to the photo.
-

STEP 2 – Saving your favorite presets in Camera Raw

- Once you found a preset you like and you want to save in camera raw, click the preset tab (1)
- Click 'save settings' (2)

- Now click SAVE (3)

- Choose a name you like for the preset.
