- easy to edit
- Full HD
- Help file included
- music and screens not included

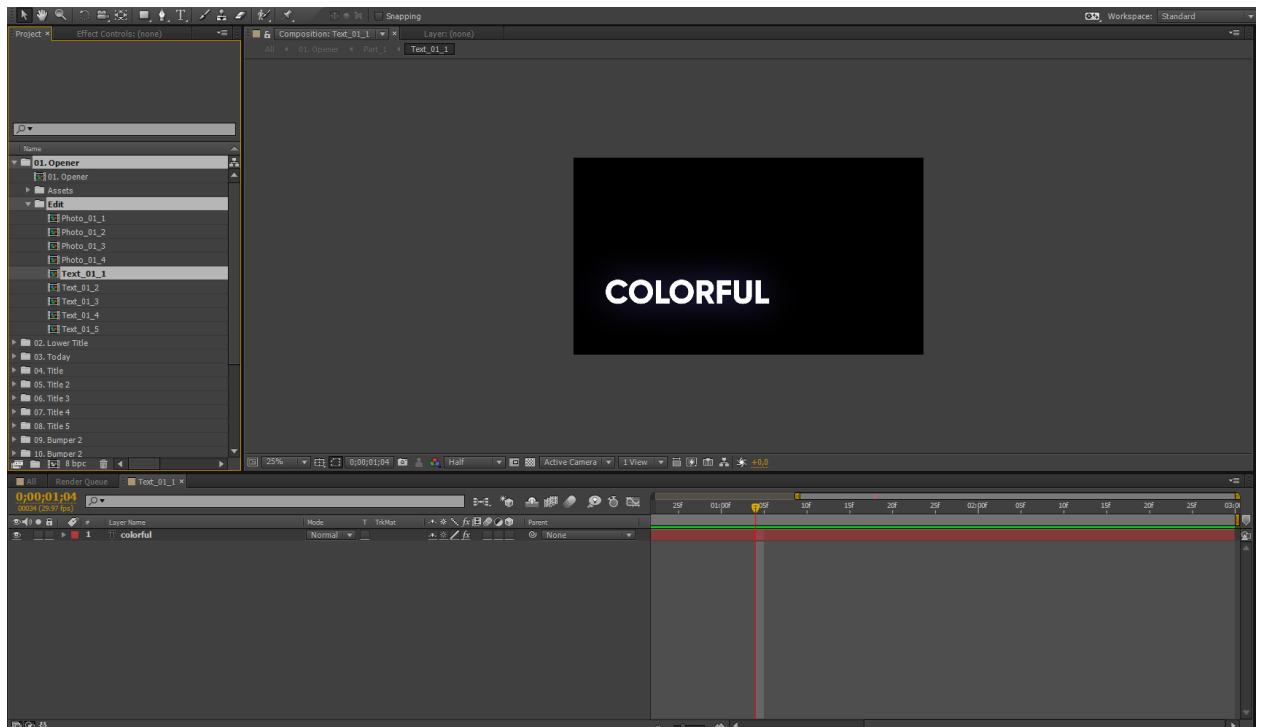

Music: <https://audiojungle.net/item/hiphop/20044346?ref=3uma>

Fonts: <https://www.fontsquirrel.com/fonts/gilroy>

The project is very simple! Each utility has its own folder with a composition for rendering and compositions for editing(they are in the "Edit" folder"). For example, let's edit the first utility, Opener. Open the Edit folder. It contains comps for your text and images.

Open them one by one, change the text and insert your photos or videos.

Other parts of the project are edited in the same way.

All footages are purchased on envato elements and have CC license.
