

Snow Toolkit

by Videologio

For After Effects
cs4 & Above

DETAILS:

26 premade and editable scenes are included! Control snowflakes density and size. There are different versions for general, medium and close up shots! Plugin [Trapcode Particular](#) is required!

Detailed video tutorial is included too!

The audio track is not included but you can purchase it:

[Magical Christmas](#) by [JohnRosso](#)

HOW TO USE IT:

1. Open the snow comp that you want to use. There are four categories: General, Medium, Close up Shots and Blowing.
2. Import your video footage and drag and drop it in the snow comp. Put it at the under the other layers.
3. Select the “controllers” layer and edit the density and size of the flakes at the Effects Control Panel.
4. Render it!

More Realistic Scene:

Detailed video tutorial is included!

SUPPORT

If you have any questions about my projects or if you have any problem feel free to contact me via my mail and I'll answer you asap. The customization of the templates is not included in the price of the items. If you would like to hire someone to customize the templates for you, I am available for freelance services too.

My e-mail: yiannislio@yahoo.com

My facebook page: [Videologio](#)

My Site: [Videologio -Creative Studio](#)

And rate my items at the **DOWNLOAD** section! Thank you!

Regards

Yiannis Liolios - Videologio
