

# How To Install Presets

Very easy just follow below steps

**Steps-01:** Open your lightroom version then got to **Develop Option**

**Steps-02:** Then go to **left side bar** and go below. Then go to **presets option**.  
Then create a folder and press **Right button** on the folder and then import your presets from download folder.

**Steps-03:** Video tutorial- [https://www.youtube.com/watch?v=t\\_OXTe7c9nE](https://www.youtube.com/watch?v=t_OXTe7c9nE)

**Steps-04:** That's enough. Enjoy!

**Thanks**
