Inside the Presets window, click on the drop down menu and select 'Shapes'. From here select 'Load Shapes...'. Select the Pattern which came with the download.</p> <p>3. The action will now appear in the actions panel</p>

If you are not using the English version of Photoshop, you can change it to English to run the Action and then back again to your native language using this method below:

<https://www.youtube.com/watch?v=GJAiu5W2gLE>

If you are a Creative Cloud subscriber, you can also change your language using the method below:

<https://helpx.adobe.com/creative-cloud/help/change-install-language.html>

Please check:

1. Your photo is in **RGB color** mode
2. Your photo is in **8bit color** mode
3. Image has 240-300dpi Pixels/inch. (**Recommended 300dpi**)
4. This action has been tested and working on Photoshop **CS5, CS6 ,CC,CC2014,CC2015.5,CC2017+**
(with 'Oil Paint' filter available).
5. Avoid using low resolution images. For the best results with this Action, use photos over **2000 px to 3000 px** high or wide.
6. Ensure you have loaded the Action brushes into your brushes panel and the brush opacity set to 100% before running the Action.

Note: If you use Grand Theft Effect Photoshop Actions places do not open another file in Photoshop simultaneously.

HOW TO USE THE ACTION?

1. Open your photo to work with.
2. Ensure you have loaded the **GTE_Patterns'**.
3. Ensure you have loaded the **GTE_Shepes'**.
4. Ensure you have loaded the **GTE _Brushes.'** file into your brushes panel and your brush opacity is set to **100%** before running the Action.

5. Create a new layer and name it "**artaction**" (must be UPPERCASE). Brush on this layer the area that you need to focus (you can use any colors) Find action on the action list then open it and **Play the Action!**
6. Wait a few minutes that Photoshop make all actions (**speed of action work depends of the power of your computer**).
7. Then after you make 11 examples with your photos, put them into one folder, and name them with numbers 01,02,03...011. Then open the "**Frame 1 to Frame 2 anyone**" PSD file, and run the "**Frame 1 to Frame 2**" action.
8. **You can also customize and improve the result. 10 Colors FX and Color Settings. Turn on/off layers.**

Thanks!
