

INCENCE

Photoshop Action

First, thank you for purchasing Incence Photoshop Action.

First before using this Action You must check few things:

- 1. You need to have English version of Photoshop**
- 2. You need to have RGB Color checked (Go to Image > Mode and Check RGB Color)**
- 3. After, in that same panel check 8 Bits/Channel option**
- 4. Go to Layers , Click on little icon in upper right corner and go to Layers Panel Options and check "Add "copy" to Copied Layers and Groups"**

NOTE : After Action is completed you can close all folders by holding ALT and clicking on the main folder like "Adjustments" on litte arrow next to folder icon in layers panel

- 1. Go to the "Window" button in Menu and select "Actions"**
- 2. In the Actions Panel go to the upper right corner and press that button and press "Load Actions"**
- 3. Now go to the Incence Action folder and load "Incence.atn"**
- 4. Incence Action in Actions panel will appear**

5. Goto - Edit>Preset>preset Manager to load brushes

6. Now Create new layer set the name "Brush" and brush your Image area you want

7. Now you can Run Incence Action

thats it

Thank you!
